**PROJECT:** FAA Falcon Field and Williams Gateway and Prescott STARS Upgrades  
**SUBJECT:** Letter of Reference

To Whom It May Concern,

CAL INC would like to thank you and all of your representatives who worked with us and helped us perform on the above-mentioned projects. CAL INC would like to thank you for providing a quality product that will meet the government's needs and its intended purpose. We would also like to especially recognize Alan Garst and Anthony Murfin for the assistance in your office to help us meet our extremely tight deadlines and their ease to work with. CAL INC would also like to thank your field personnel for their extremely quick install of the product and overall knowledge to get the job done in a timely and quality manner.

CAL INC encourages you to send in any comments that you feel are relevant to the project concerning any aspect including workmanship, finish product, and site management. Any and all comments are greatly appreciated whether they are good or bad.

Once again, we thank you for the opportunity to work on your project and hope that we can do projects in the future with the same type of productivity.

If any of your clients have any questions or would like to speak to me about your performance, please call me at (707) 446-7996.

Sincerely,

Andrew Mittleman  
Project Manager
