

Ground Zero Electrostatics ZeroStat Paint (ZS-Paint)

ZeroStat Paint

ZS-PAINT dissipative floor paint is a one part latex coating formulated for the electronic manufacturing environment. With consistent readings in the 10^6 - 10^8 ohms range, regardless of relative humidity, ZS-PAINT provides an effective fast and safe path to ground. When applied to work area flooring, ZS-PAINT eliminates cumbersome floor mats.

ZS-PAINT protects difficult to ground items such as walls, furniture components, shipping containers, shelving systems, work stands, cabinets, and racks. This coating is not dependent on relative humidity to function properly. Warm water and detergent will remove dirt and debris from cured ZS-PAINT floor paint. Available in neutral gray color.

FEATURES

- ☀ Dissipative: Quickly drains static charges
- ☀ Durable: Hard, abrasion resistant formulation
- ☀ Environmentally Friendly: No solvents
- ☀ Low VOC: Water based, no amines or isocyanates
- ☀ Economical: Low cost per sq. ft
- ☀ Aesthetic: Neutral, light gray, easy to touch up
- ☀ Easy Clean-up: Soap and water
- ☀ Resistivity: Consistent 10^6 - 10^8 ohms/sq. readings
- ☀ Enhanced Polyurethane: One part system
