

SNAP TOOL (HW-223)

For Static Mats

Snap Attaching Tool

Customize your static mats.

Description

This simple-to-use tool attaches snaps to static mats. Three easy steps give you a secure snap with good electrical connection. Rugged and rust resistant, the Snap Tool allows you to put a grounding snap right where you need it.

Features

- Perfect for Custom Mat Installations.
- Designed for easy use.
- Rust Resistant Finish.
- Durable Metal Construction.

Instructions

1. Press "Post" through the mat from the back.
(A utility knife or phillips screw driver can be used to make hole.)

2. Place "Stud" on top of "Post".

3. Grip the Stud and Post with the tool and squeeze the handle.
