

Disposable Fabric Wrist Strap

Item Number
WS-DS-512

Disposable Fabric Wrist Strap

The WS-DS-512 Disposable Wrist Strap offers a safe, effective and economical means for providing static protection to end users of electronic devices. The WS-DS-512 is designed for inclusion with shipments of computer upgrades, network systems and other devices to provide protection at the customer's site. Constructed from a durable nylon fabric impregnated with conductive fiber, it provides 360 degree skin contact to assure proper skin to band resistance. A convenient loop at one end of the device facilitates the formation of a wrist strap. The other end of the device uses a conductive adhesive on a copper foil for easy contact to any electrical ground. A current limiting resistance is built into the fabric for operator safety. The WS-DS-512 Disposable Wrist Strap is individually packaged in a sealed plastic bag printed with user instructions.

SPECIFICATIONS:

Material: Woven Nylon with Conductive fiber
Typical Dimensions: 60" (152cm) x .44" (1.2cm)
Packaging: 100 per bag, 500 per box

Yellow Disposable Wrist Strap

The WS-DS-801 is a cost effective disposable wrist strap that provides static protection and is ideal for one-time use applications. Ship it with your product for static protection at the point of installation. Excellent for field service and remote electronic equipment installations or for short term use by visitors in electronics manufacturing. This wrist strap provides a full 4.5 feet of working length, allowing you to reach equipment. The wrist loop provides full adjustability without any messy adhesives. A metal clip provides a solid connection to ground, and does not leave adhesive residue like tape. A one megohm resistance is contained within the conducting strip. Each wrist strap is packaged in a bag with instructions.

FEATURES

- Low cost, disposable protection.
- Protect products at the point of use
- 1 megohm resistance- 100% tested.
- Metal ground clip.
- Adjustable wrist loop.
- Yellow color for awareness.
