

ZeroStat Shock Stop

Static Dissipating Carpet Treatment

Reduces static
on carpet

Long lasting
static
protection

Effective on
natural or
synthetic
fibers

PRODUCT DESCRIPTION

A sophisticated combination of quarternary and resin compounds designed to eliminate static buildup on carpets, upholstery, and fabrics. Considering the almost universal use of computers and other sensitive electronics equipment in businesses and even private homes, ZeroStat Shock Stop provides an important safeguard against potential damage from electrostatic discharges. ZeroStat Shock Stop is non-corrosive, non-flammable, biodegradable, and environmentally oriented.

APPLICATION & MAINTENANCE

Remove dust and loose dirt from carpet with vacuum cleaner. Remove stains and soil with spotter or shampooing procedure. Adjust a trigger or pressurized sprayer to deliver a fine mist and cover the application area evenly. Allow the carpet to dry before admitting foot traffic. This is a concentrated product which may be diluted for more frequent applications. Reapply as needed to control static, and after shampooing. Static-dissipating action should continue for 30 to 90 days depending on the amount of traffic and relative humidity. Coverage is approximately 1000 square feet per gallon.

SAFETY INFORMATION

Health	1
Flammability	0
Reactivity	0
Personal Protection	B

CAUTION: Can cause eye and skin irritation. Wear safety glasses and plastic gloves when handling material. Prolonged contact with skin can cause dermatitis. Contains Diethylene glycol methyl ether CAS# 111-77-3. For detailed information consult MSDS sheet.

SPECIFICATIONS

Active Ingredients	Anti-Statoc and quarternary compounds
pH	11.0 +/- 0.5
Free Ammonia	None
Free Alkali	None
Free Acid	None
Phosphates	None
Abrasives	None
Color	Light green
Odor	Mild Detergent
Solubility in Water	100%
Freeze/Thaw Stability	Minimum 3 cycles
Shelf Life	Minimum one year at room temperature
Flash Point	>220 °F
Weight Per Gallon	8.3
Biodegradable	Yes
Soil Suspension	Good

Product No.
