

Ground Zero Electrostatics Ion 8550 Industrial Ionization Blower

ION-8550 Industrial Ionization Blower

The ION-8550 Ionizing Air Blower tackle tough static electricity problems in difficult to reach locations or across large surfaces. Because the ION-8550 can flood the desired area with ionization from several feet away it is ideal for any application involving wide webs or sheets, slitting winding, plastic parts conveying, packaging or where access to static problem is limited.

Enclosed in a rugged aluminum housing, the ION-8550 is tough enough to handle even the roughest industrial environments. Replaceable air filters mounted on each side of the housing allow use in dirty environments. Easy to reach ionization emitters points and quick release filter guards make routine cleaning and Maintenance of the ION-8550 fast and easy.

FEATURES:

- Variable Air Flow control to 400 SCFM (adjustable)
- Disposable air filters for use in dirty environments.
- Heavy duty slotted mounting bracket for maximum mounting flexibility , Tripod Stand, or Bench Top Stand

Specifications:

Nominal Airflow:	400 scfm (adjustable)
Power Supply:	Internal or external PS-7500
Input Power:	115 VAC 50/60 HZ (others upon request)
Housing:	Aluminum
Dimensions:	Height: 8 3/4 inches Width: 16 3/8 inches Depth : 8 1/4 inches
Weight:	14 lbs
